## EXPERIENCE

### **Arimac Lanka, Colombo, Sri Lanka**

#### *Associate Technical Lead - Du Greenfield Transformation (Dubai, UAE)*

FEB 2022 - PRESENT

Arimac is the Front-end partner for the [Du Greenfield](#) business transformation. Du is the largest telecom in the UAE. It is currently going through a 5-year-long, end-to-end Greenfield transformation program that will enable them to serve the future demands of its growing customer base and technology trends.

- Introduced and maintained best practices for micro frontend RN projects, helped reduce 40% of development/debugging time.
- Conducted quality measures, code reviews, and unit tests throughout feature implementations, improving product quality and developer confidence.
- Provided technical guidance to the development team on development phases and planning sessions.

### **Emmito, Colombo, Sri Lanka**

#### *Senior Software Engineer*

DEC 2020 - FEB 2022

Emmito is a cutting-edge software engineering company that specializes in mobile app development. Part of the core team, responsible for designing, developing and maintaining cross-platform mobile applications.

- Transform design systems into pixel-perfect component libraries and maintain updates, helping to minimize repetitive code by keeping a single source. Bug fixing, gathering requirements and designing new solutions.
- Followed Research & Development approach to build scalable full-stack/Mobile applications by considering business requirements.
